To whom it may concern,

I am writing on behalf of our client Joanie Funk at 2850 Marshall Blvd who is trying to install a pool and thinking long term about adding onto the house. In preparation for that work and in consideration of the setbacks for this property the Oak in the rear of the house circled on the plan below is a hindrance and hardship to move forward with the installation or construction of these features. The homeowner is asking that this tree be removed with the understanding that there may need to be replanting or payment into the Sullivans Island Tree fund.

Thank you for your consideration,
