

SUBMITTAL CHECKLIST

SULLIVAN'S ISLAND DESIGN REVIEW BOARD

2056 Middle St. • P O Box 427 • Sullivan's Island, SC • 29482 • (843) 883-3198

Project Address: 2851 I'On Avenue

Submittal Date: April 14, 2023

Meeting Date: May 17, 2023

Requested Approval:

Conceptual

Preliminary

Final

Review Process: A pre-application meeting is recommended with Planning staff as soon as the owner and/or design professional identify design objectives. Following the pre-application meeting, **Conceptual plans** should be submitted to the Design Review Board for review and comment. **Preliminary** or even **Final** plan review is generally required but may be waived at the discretion of the Board. Incomplete submittals or requests not consistent with Zoning Ordinance standards will be returned to the applicant and the project will not be part of the meeting agenda in accordance with Zoning Ordinance §21-109 F. (4).

The following items shall be included to receive plan approval:

- ☒ Application fee (*Checks payable to Sullivan's Island Design Review Board*)
- ☒ Completed Application to Sullivan's Island Review Board form (**FORM A**)
- ☒ Completed Sullivan's Island DRB Request for Review form (**FORM B**)
- ☒ Completed Zoning Standards Compliance Worksheet (**FORM C**)
- ☐ Completed **Historic** Worksheet (**FORM D.1**), or ☒ **Neighborhood Compatibility Worksheet** (**FORM D.2**)
- ☒ **Two (2) sets** of Drawings, 11" x 17" size. Drawings to include:
 - ☒ **A current as-built survey**, Certified by a S.C. Registered Land Surveyor [1/16" = 1'-0" OR 1" = 20'-0" Required for all new construction and for work which expands or is outside of an existing building footprint; illustrating the following:
 - All applicable Flood Zone information
 - Setbacks, property lines and easements
 - Spot elevations required to comply with Section 21-24
 - OCRM Critical Lines, or Baseline and Setback if applicable
 - Existing Structures, if applicable
 - ☒ **Site Plan** [1/16" = 1'-0" OR 1" = 20'-0" scale], illustrating the following:
 - Existing structures, if applicable
 - Proposed new structures
 - All applicable survey information
 - ☒ **Floor Plans** [1/8" = 1'-0" scale], with the following requirements:
 - Exterior dimensions
 - Graphically depict the outlines of heated space, covered porches and open decks.
 - In the case of renovations and/or additions, the outlines of existing and new construction must also be shown.
 - ☒ **Exterior Elevations** [1/8" = 1'-0" scale], with the following requirements:
 - All exterior materials such as wood, stucco, roofing and / or masonry shall be graphically represented for intent.
 - Elevations must be rendered with shadows depicting roof and / or deck overhangs, changes in wall plane, or massing. Devoid of any graphically
 - Roof ridge heights and Finished Floor Elevation (FFE) and their relationship to FEMA Base Flood Elevation (BFE)
 - ☐ **Optional:**
 - 3-D perspective sketches and / or models are encouraged.
 - Any relevant photographs or documentation that might be descriptive (of adjacent properties).

REQUEST FOR REVIEW FORM (FORM B)

Sullivan's Island Design Review Board

2056 Middle St. • P O Box 427 • Sullivan's Island, SC • 29482 • (843) 883-3198

Project Address 2851 I'On Avenue

Submittal Date April 14, 2023

Meeting Date: May 17, 2023

BREAKDOWN OF LOT COVERAGES

Lot Information:

Total Lot Size in Square Feet: 14,567 sf
Highland Square Footage: 14,567 sf
Lot Width: 99'-9 1/2"
Lot Depth: 146'-7 1/2"
Flood Zone / Base Flood Elevation: AE 10'

Sec. 21-25 Principal Building Coverage Area

Principal Building Footprint: 2,451 sf
Accessory Building Footprint: 0 sf

Total Principal Bldg. Coverage Area: 2,451 sf
(Principal Building plus Accessory Structure)

Sec. 21-26 Impervious Coverage

Principal Building Coverage Area 2,451 sf
Covered Porches: 725 sf
Open Decks / Steps: 254 sf
Pool / Patio: 0 sf
Drives / Walks: (pervious) 0 sf
Other Impervious Coverage HVAC 126 sf
Total Impervious Coverage 3,556 sf

Sec. 21-27 Principal Building Square Footage

First Floor 2,441 sf
Second Floor 1,754 sf
Third Floor 0 sf
Accessory Building 0 sf

Total Principal Building Square Footage: 4,195 sf
(Principal Building plus Accessory Structure)

EXTERIOR MATERIALS

(REQUIRED FOR PRELIMINARY AND FINAL SUBMITTALS ONLY)

** REQUIRED FOR ALL PROJECTS WITHIN HISTORIC DISTRICT AND / OR THOSE HOMES DESIGNATED HISTORIC OUTSIDE OF THE HISTORIC DISTRICT*

Foundation: brick piers with wood louvered vents

Roof: metal

Walls: cedar siding, painted

Windows: clad

Trim: pt wood, painted

Doors: mahogany / clad

Sec. 21-111 Standards of Neighborhood Compatibility

NOTE: Particular attention will be paid to the Standards of Neighborhood Compatibility. Please include a narrative addressing these standards and be prepared to address in depth at presentation. The narrative and presentation should reference the Standards for Neighborhood Compatibility and design guidance form.

NEIGHBORHOOD COMPATIBILITY WORKSHEET (FORM D-2)

Sullivan's Island Design Review Board

2056 Middle St. • P O Box 427 • Sullivan's Island, SC • 29482 • (843) 883-3198

In accordance with the Sullivan's Island Zoning Ordinance, Section 21-111, the DRB shall only grant modifications of the Zoning Ordinance standards if the design is compatible with the surrounding neighborhood. The *Standards for Neighborhood Compatibility* should:

- The pattern of setback, foundation elevations and building heights;
- The massing and orientation of structures;
- Fenestration (windows) and doorway spacing and alignment patterns;
- The placement and use of porches, decks and patios;
- The placement and alignment of driveways;
- The treatment of front and side facades;
- Where appropriate, the types of roofs, the roof pitches, and other aspects of roof design;
- Where appropriate, distinctive architectural styles that characterize a street or neighborhood; and
- Such other factors as the Board may consider relevant to defining the character of the neighborhood.

Additionally, the following check-list will help the applicant and DRB determine if the proposed design is properly integrated into the context and character of the existing neighborhood.

Principal Building Square Footage (§ 21-27): When requesting relief for additional Principal Building Square Footage, the DRB will be looking carefully at ways the applicant is offsetting the impact of the requested relief. The applicant might choose one or more of the following techniques, for example:

- Lower the first-floor height closer to grade to offset the additional massing.
- Lower the main roof eave height to offset the additional massing.
- Lower the overall roof height to reduce the additional massing
- Reduce the amount of second floor wall surface
- Place the second-floor square footage within the roofline
- Provide additional setbacks for second story walls to reduce the impact to neighbors
- Assure to the DRB that the design is unique, well articulated and appropriately scaled
- DRB suggests that prior to submittal please review your plans with neighbors and request their approval of square footage changes.

We feel the design is unique and appropriately scaled with the neighboring properties. We have broken up the massing on both floors to add interest. The homeowner has a large family that will visit often and she wants to be able to accommodate enough space for them to be comfortable.

Principal Building Coverage (§ 21-25): When requesting relief for Principal Building Coverage, the DRB will be looking at ways the applicant is offsetting the impact of the requested relief. The applicant might choose one or more of the following techniques, for example:

- Lower the first-floor height closer to grade to offset any additional massing.
- Coverage relief typically includes additional lower one-story design elements. Please indicate clearly these one-story elements in the design.
- Reduce the amount of second story wall surface area and second story heated sq. ft.

- Coverage Relief is typically granted for smaller than average lots due to zoning formulas.
- Assure to the DRB that the design is unique, well-articulated and appropriately scaled.

Again we feel the design is unique and appropriately scaled with the neighboring properties.

Front and Side Building Setbacks (§ 21-22): Building setbacks are intended to create open space (landscaping, sunlight, distance) between buildings and the right-of-way. When requesting relief for Front and Side Setbacks, the DRB will be looking at ways the applicant is offsetting the impact of the requested relief. The applicant might choose one or more of the following techniques, for example:

- Request Side Setback relief as a means of preserving trees, tree canopies or other significant landscape elements.
- Consider designing one story construction in the requested relief zone to preserve sunlight and views.
- Provide well articulated side facades with separated massing elements.
- DRB suggests that prior to submittal please review your plans with neighbors and request their approval of setback changes.

We are asking for additional front setback relief because the property has 50'-0" of open space between the street and the front property line. There is then the 25'-0" front setback in addition to that making the house approximately 75'-0" off the front street.

Second Story Side Façade Setback (§ 21-22): Second story side façade setback of two feet reduces the overall height and mass of the wall and ensures more sunlight for the adjacent property. Two-foot second floor setbacks are required for any wall in excess of 10'. DRB can double that width to 20'. The DRB does not have the authority to completely eliminate the second story setback.

The longest second story wall measures 18'-0". This is because the owner would like for some main rooms to be of a certain size.

Side Façade Articulation (§ 21-29): The depth and width of a building has a substantial impact on its mass and scale. Removing the requirement for articulations in the side wall can result in a long unbroken side façade, which lacks visual appeal and creates more mass.

- It is unlikely that the DRB will grant 100% relief allowing a 60' long unarticulated wall.
- When requesting any relief less than 100%, assure to the DRB that the design is unique, well articulated and appropriately scaled
